Aprilia Tuareg 660. A 43 mm fork and progressive linkage monoshock, both with long 240 mm travel, ensure off-road traction and fun in places where others have to close the throttle. The parallel-twin engine now delivers maximum power of 80 HP, peak torque of 70 Nm and a significantly boosted low/mid-range curve. The sump reduces the vertical footprint, for a ground clearance of more than 240 mm and a seat height of less than 860 mm.
